

IN THE CLAIMS AMEND

1. (Currently Amended) A plaster with a base layer (10), having a working layer (20) and an adhesive layer (12), whereby ~~the~~ an external surface of the base layer (10) remote from the adhesive layer (12) is formed in such a way that it accepts a cosmetic preparation, and wherein further ~~characterised in that~~ the external surface (14) of the base layer (10) is rough, and includes one of a surface treatment ~~or~~ and a surface coating (16) so that it is either lipophilic or hydrophilic.

2. (Cancelled)

3. (Cancelled)

4. (Currently Amended) The plaster according to claims 1, ~~characterised in that~~ wherein the external surface (14) exhibits an imprint (28) with a skin pattern.

5. (Currently Amended) The plaster according to claim 1, ~~characterised in that~~ wherein the working layer (20) comprises at least one microencapsulated (22) active substance (26).

6. (Currently Amended) The plaster according to Claim 5, ~~characterised in that~~ wherein the active substances (26) comprises at least one substance selected from the group ~~comprising~~ consisting of drying agents, pharmaceuticals acting on the skin, anti-inflammatory pharmaceuticals, pharmaceutical substances which are supplied to the body percutaneously, and skin-care products.

7. (Currently Amended) The plaster according to claim 1, ~~characterised in that~~ wherein the base layer (10) bears a printing-ink layer (30).

8. (Currently Amended) The plaster according to claim 7, ~~characterised in that~~ wherein the base layer is made out of a transparent material, and the printing-ink layer (3) is situated between the base layer (10) ~~which is made out of transparent material and the~~ adhesive layer (12).

9. (Currently Amended) The plaster according to claim 1, ~~characterised in that~~ wherein the base layer (10) is made out of rubber.

10. (Currently Amended) The plaster according to claim 1, ~~characterised in that~~ wherein the base layer has a thickness ~~the thickness of the base layer (10) amounts to~~ between 20 μm and 100 μm .

11. (Currently Amended) The plaster according to claim 1, ~~characterised in that~~
wherein the adhesive layer (12) consists of an adhesive that cures after application of the
plaster on the skin.

12. (Cancelled)

13. (Currently Amended) A set consisting of at least one plaster according to Claim 8
and a coloured cosmetic preparation, ~~characterised in that~~ wherein the printing-ink layer
(30) and the cosmetic preparation have the same colour.

14. (Currently Amended) A set consisting of at least one plaster according to Claim
1, ~~characterised in that it~~ wherein the set comprises a plurality of plasters of varying size
which have been punched out of a planar material.

15. (Currently Amended) The plaster according to claim 1, ~~characterised in~~
~~that~~ wherein the adhesive layer (12) is made out of a constantly tacky material so that the
plaster is capable of being pulled off from a backing, wherein the backing comprises a
plaster which is likewise formed in accordance with claim 1.

16. (Currently Amended) The plaster according to claim 6, ~~characterised in that~~
wherein the drying agents comprise at least one of kieselguhr, and aluminum oxide.

17. (Currently Amended) The plaster according to claim 6, ~~characterised in that~~
wherein the skin care products comprise soothing oils.

18. (Currently Amended) The plaster according to claim 10, ~~characterised in that~~
wherein the base layer ~~(10) amounts to~~ has a thickness between 30 µm and 60 µm.

E 19. (New) A plaster with a base layer, having a working layer and an adhesive layer,
whereby an external surface of the base layer remote from the adhesive layer is formed in
such a way that it accepts a cosmetic preparation, and wherein further the external surface
of the base layer exhibits an imprint with a skin pattern, and includes one of a surface
treatment and a surface coating so that the external surface is either lipophilic or
hydrophilic.

20. (New) The plaster according to Claim 19, wherein the external surface is rough.

21. (New) The plaster according to claim 19, wherein the working layer comprises
at least one microencapsulated active substance.

22. (New) The plaster according to Claim 21, wherein the active substances
comprises at least one substance selected from the group consisting of drying agents,
pharmaceuticals acting on the skin, anti-inflammatory pharmaceuticals, pharmaceuticals
substances which are supplied to the body percutaneously, and skin-care products.

23. (New) The plaster according to claim 19, wherein the base layer bears a printing-ink layer.

24. (New) The plaster according to claim 23, wherein the base layer is made out of a transparent material, and the printing-ink layer is situated between the base layer and the adhesive layer.

25. (New) The plaster according to claim 19, wherein the base layer is made out of rubber.

26. (New) The plaster according to claim 19, wherein the base layer has a thickness between 20 μm and 100 μm .

~~27.~~ (New) The plaster according to claim 19, wherein the adhesive layer consists of an adhesive that cures after application of the plaster on the skin.

28. (New) A set consisting of at least one plaster according to Claim 24 and a coloured cosmetic preparation, wherein the printing-ink layer and the cosmetic preparation have the same colour.

~~29.~~ (New) A set consisting of at least one plaster according to Claim 19, wherein the set comprises a plurality of plasters of varying size which have been punched out of a planar material.

30. (New) The plaster according to claim 19, wherein the adhesive layer is made out of a constantly tacky material so that the plaster is capable of being pulled off from a backing, wherein the backing comprises a plaster which is likewise formed in accordance with claim 19.

15

31. (New) The plaster according to claim 22, wherein the drying agents comprise at least one of kieselguhr, and aluminum oxide.

14

32. (New) The plaster according to claim 22, wherein the skin care products comprise soothing oils.

17

33. (New) The plaster according to claim 26, wherein the base layer has a thickness between 30 μm and 60 μm .

18

34. (New) A plaster with a base layer, having a working layer and an adhesive layer, wherein the base layer bears a printing-ink layer, and whereby an external surface of the base layer remote from the adhesive layer is formed in such a way that it accepts a cosmetic preparation, and wherein further the external surface of the base layer and includes one of a surface treatment and a surface coating so that the external surface is either lipophilic or hydrophilic.

1 and 2

35. (New) The plaster according to claim 34, wherein the external surface exhibits an imprint with a skin pattern.

4 and 361

36. (New) The plaster according to Claim 34, wherein the external surface is rough. 1

37. (New) The plaster according to claim 34, wherein the working layer comprises at least one microencapsulated active substance. 5

38. (New) The plaster according to Claim 37, wherein the active substances comprises at least one substance selected from the group consisting of drying agents, pharmaceuticals acting on the skin, anti-inflammatory pharmaceuticals, pharmaceutical substances which are supplied to the body percutaneously, and skin-care products. 6

39. (New) The plaster according to claim 34, wherein the base layer is made out of a transparent material, and the printing-ink layer is situated between the base layer and the adhesive layer. 8

40. (New) The plaster according to claim 34, wherein the base layer is made out of rubber. 9

41. (New) The plaster according to claim 34, wherein the base layer has a thickness between 20 μm and 100 μm . 10

42. (New) The plaster according to claim 34, wherein the adhesive layer consists of an adhesive that cures after application of the plaster on the skin. 11

43. (New) A set consisting of at least one plaster according to Claim 39 and a coloured cosmetic preparation, wherein the printing-ink layer and the cosmetic preparation have the same colour.

44. (New) A set consisting of at least one plaster according to Claim 34, wherein the set comprises a plurality of plasters of varying size which have been punched out of a planar material.

45. (New) The plaster according to claim 34, wherein the adhesive layer is made out of a constantly tacky material so that the plaster is capable of being pulled off from a backing, wherein the backing comprises a plaster which is likewise formed in accordance with claim 34.

46. (New) The plaster according to claim 38, wherein the drying agents comprise at least one of kieselguhr, and aluminum oxide.

47. (New) The plaster according to claim 38, wherein the skin care products comprise soothing oils.

48. (New) The plaster according to claim 41, wherein the base layer has a thickness between 30 μm and 60 μm .

49. (New) A plaster with a base layer made out of a transparent material, the base layer having a working layer and an adhesive layer, wherein the base layer bears a printing-ink layer situated between the base layer and the adhesive layer, and whereby an external surface of the base layer remote from the adhesive layer is formed in such a way that it accepts a cosmetic preparation, and wherein further the external surface of the base layer includes one of a surface treatment and a surface coating so that the external surface is either lipophilic or hydrophilic.

1 and 8

50. (New) The plaster according to claim 49, wherein the external surface exhibits an imprint with a skin pattern.

9

51. (New) The plaster according to Claim 49, wherein the external surface is rough.

1

52. (New) The plaster according to claim 49, wherein the working layer comprises at least one microencapsulated active substance.

5

53. (New) The plaster according to Claim 52, wherein the active substances comprises at least one substance selected from the group consisting of drying agents, pharmaceuticals acting on the skin, anti-inflammatory pharmaceuticals, pharmaceutical substances which are supplied to the body percutaneously, and skin-care products.

6

54. (New) The plaster according to claim 49, wherein the base layer is made out of rubber.

9

55. (New) The plaster according to claim 49, wherein the base layer has a thickness between 20 and 100 μm .

10

56. (New) The plaster according to claim 49, wherein the adhesive layer consists of an adhesive that cures after application of the plaster on the skin.

11

57. (New) A set consisting of at least one plaster according to Claim 49 and a coloured cosmetic preparation, wherein the printing-ink layer and the cosmetic preparation have the same colour.

12

58. (New) A set consisting of at least one plaster according to Claim 49, wherein the set comprises a plurality of plasters of varying size which have been punched out of a planar material.

13

59. (New) The plaster according to claim 49, wherein the adhesive layer is made out of a constantly tacky material so that the plaster is capable of being pulled off from a backing, wherein the backing comprises a plaster which is likewise formed in accordance with claim 34.

14

60. (New) The plaster according to claim 53, wherein the drying agents comprise at least one of kieselguhr, and aluminum oxide.

15

61. (New) The plaster according to claim 53, wherein the skin care products comprise soothing oils.

17

62. (New) The plaster according to claim 55, wherein the base layer has a thickness between 30 μm and 60 μm .

18
